Slip Ring

SRP-CL9-IE

ENDO

■ Shaft type slip ring for data communication

A new type of brush system is used to achieve stable communication with less noise. A high-performance communication and control slip ring featuring a compact, lightweight, and robust body. Lead cable is Category 5e standard cables.

Circuit	Ethernet with STP connector
Rotation torque	less than 0.10Nm
Allowable radial load to the shaft	13N (1.3kgf)
Allowable thrust load to the shaft	13N (1.3kgf)
Vibration resistance	5G or less
Rotational speed	400min ⁻¹ (rpm)
Product lifetime	(maintenance-free) 30 million rotation
Ingress protection	IP4X equivalent
Mass	510g
