

MITSUBISHI ELECTRIC ENGINEERING COMPANY LIMITED

Network Interface Modules

CC-Link IE TSN, CC-Link IE Field Network,
CC-Link IE Field Network Basic, SLMP, MODBUS/TCP, CC-Link

**Flexible connection between your facility's network
and sensors and other devices
Smart Production Sites with IoT**

Case 01 Monitoring on-site operating conditions

Small IoT system for integrated management of device data

Case 02 Meeting user-selected network specifications

Switching connection to various types of network

Case 03 Facilitating wiring from the control panel to the system

Easy wiring from the control panel to the system

Case 04 Reducing initial cost and maintenance cost

Optimum system configuration using modules

Case 05 Constructing a system that incorporates a function to prevent troubles and identify the cause

Operation data recording function for preventing and solving troubles

**Digital signal converter
(terminal module)**

Analog signal converter
